Contractor / Person in Charge

Date

City Staff Person

Date

Note: Allow 3 days for review.

Public Works (white) / Applicant (yellow) / O&M (pink) / Police Department (gold) / Construction Inspector

Rationale for Permit

- A) Provide the applicant appropriate permissions to conduct work in the public right of way.
- B) Assess and ensure public elements will be appropriately handled, avoided, or reconstructed to City standards.
- C) Provide opportunity to inform additional entities of upcoming work.
- D) Coordinate with schedules for potential road closures or impacts.

Responsibility Contract Agreements

- 1) A copy of this permit shall be kept on the job site at all times during Right-of-Way work. No uses or excavations are allowed except those specified in Location(s) listed on the opposite side. City crews or emergency services reserve the right to request to see the permit at any time and stop work if the permit cannot be produced.
- 2) Contractor shall be licensed to work in the City of Rifle. Contractor shall remain licensed for at least 30 days past the one-year performance inspection of any cut made.
- 3) A cash deposit of \$500 or a security bond in the amount of \$1,000.00 (min.) per cut is required for work in any City of Rifle street or alley. (Sec.11.4.080) The City of Rifle may hold cash deposit for up to 12 months from the completion date of this Right-of-Way Use and Excavation Permit. Security Bond amounts may vary due to work conditions or scope of work and shall be in effect for one (1) year of the work's completion. (11.4.080 (b) (e))
- 4) All construction and back filling shall be completed in accordance with the latest edition of the City of Rifle Public Works Manual.
- 5) Contractor is responsible for obtaining utility locates via the **811 One-Call** system in advance of starting any construction work.
- 6) Contractor is responsible for providing traffic management. Traffic control devices and their deployment shall be in accordance with the latest edition of the Manual on Uniform Traffic Control Devices (MUTCD). The City may stop work if this condition is violated.
- 7) Contractor is responsible for notifying the **County Dispatch (625-8095)** and the Street Department (**665-6476**) in advance of any construction to apprise them of construction schedules and street closures. Contractor must be available until finished.
- 8) Contractor shall notify area residents and businesses a minimum of two days before the start of work, if it is anticipated that the proposed work may impact or inconvenience them. Check with City, as necessary, for impact clarification.
- 9) Contractor shall be responsible for completion of all asphalt and concrete restoration within 30 days of initial cut. Contractor is responsible for maintaining all street excavations by providing temporary (cold mix) to the existing surface level until 30-day asphalt and concrete restoration is complete. All cold mix shall be completely removed and hot mix to Public Works Manual Specification applied.
- 10) Contractor will be given only one opportunity to correctly repair any failed patch. Any failed patch not immediately corrected by the contractor will be corrected by the City using contractor's cash deposit or bond. If insufficient funds are available, the City will bill the contractor and will complete the restoration work to the City's satisfaction.
- 11) No new Right-of-Way Use and Excavation Permits will be issued to any contractor for a minimum of one-year for violation of any of the above responsibilities.
